INTERNSHIP DESCRIPTION — CNC DEBURRER
GLENDALE HEIGHTS, IL
$15.50/HOUR
MAXIMUM HOURS/PER WEEK - 29
MAXIMUM LENGTH - 3 MONTHS

WorkNet DuPage is looking for a WIOA Young Adult program participant for an internship as a CNC Deburrer for HYDAC Technology Corporation in Glendale Heights. HYDAC stands for hydraulics, systems, and fluid engineering. They are a worldwide leader and partner in fluid technology that specializes in the design, development, and manufacturing of custom solutions for the mobile and industrial markets. In addition, they offer clients a large package of technical services around the fluid Engineering for hydraulic oil, lubricants, cooling lubricants and water.

The candidate for this opportunity will develop skills and good working habits that will center on the following:

- You're interested in working with a state-of-the art manufacturer, technology leader, and enjoy working with a team
- You don't want to work at a desk and would prefer a job that requires physical activity and movement
- You are good at paying attention to detail and enjoy seeing immediate results from your work
- You're interested in gaining work exposure in a dynamic company that provides lots of career growth and opportunities, is constantly evolving, and utilizing new methods and innovative resources

At completion of this internship, you will be able to add valuable workplace skills to your resume such as CNC Deburrer, Order Fulfillment, Quality Control, Machine Maintenance, and more!

As with all internships, the experience, opportunity, and exposure to other professionals you gain in this position could lead your career and future down a variety of different and good-paying career paths in manufacturing!

JOB DESCRIPTION:

You will report to the Lead Supervisor and will perform the following jobs:

- Grind, polish, and clean precision machined parts made of a variety of materials to specified requirements and tolerances
- Use all measuring and gauging instruments.
- Inspect finished work to required specifications
- Perform rework assignments as required

- Provide feedback to CNC Machinists about part quality
- Ensure all paperwork and documentation is properly completed
- Other duties as assigned

WHAT YOU NEED TO DO THE JOB:

- Must be able to read production work orders, BOMs, and quality plans
- Good dexterity
- Ability to use hand and power tools
- Open to learning deburring process and grinding parts to exact specifications
- Must have a keen attention to detail
- Ability to speak and read English
- High School Diploma or GED
