Partner Referrals: February 2023 vs. February 2024

Service Integration Success Story

Adela, College of DuPage representative met with Edwin back in early December. He was initially exploring the several possible occupations for which Adela provided information on. After researching and working with Marianne he decided to pursue the Entry Level HVACR Certificate at College of DuPage. This is a newly approved certificate that the HVACR department created to address workforce issues. It is 5 classes and takes a total of 16 weeks to complete. Edwin wanted to begin in January but was only able to register for one class as all others were full. Marianne suggested the three of us meet and we discussed him signing up on the waitlist for the remaining classes and then attending each class, and letting the professor know he was on the waitlist and hoped to get in the class. By the end of the week, he was registered for all classes and is on pace to complete by mid-May. He has also secured several job interviews which Marianne can provide more detail on. One interview he sourced on his own and the others he secured after attending the PRC Career Fair this week. It looks likely he will have a job waiting for him when he graduates.
