Looking forward

ONE STOP OPERATOR

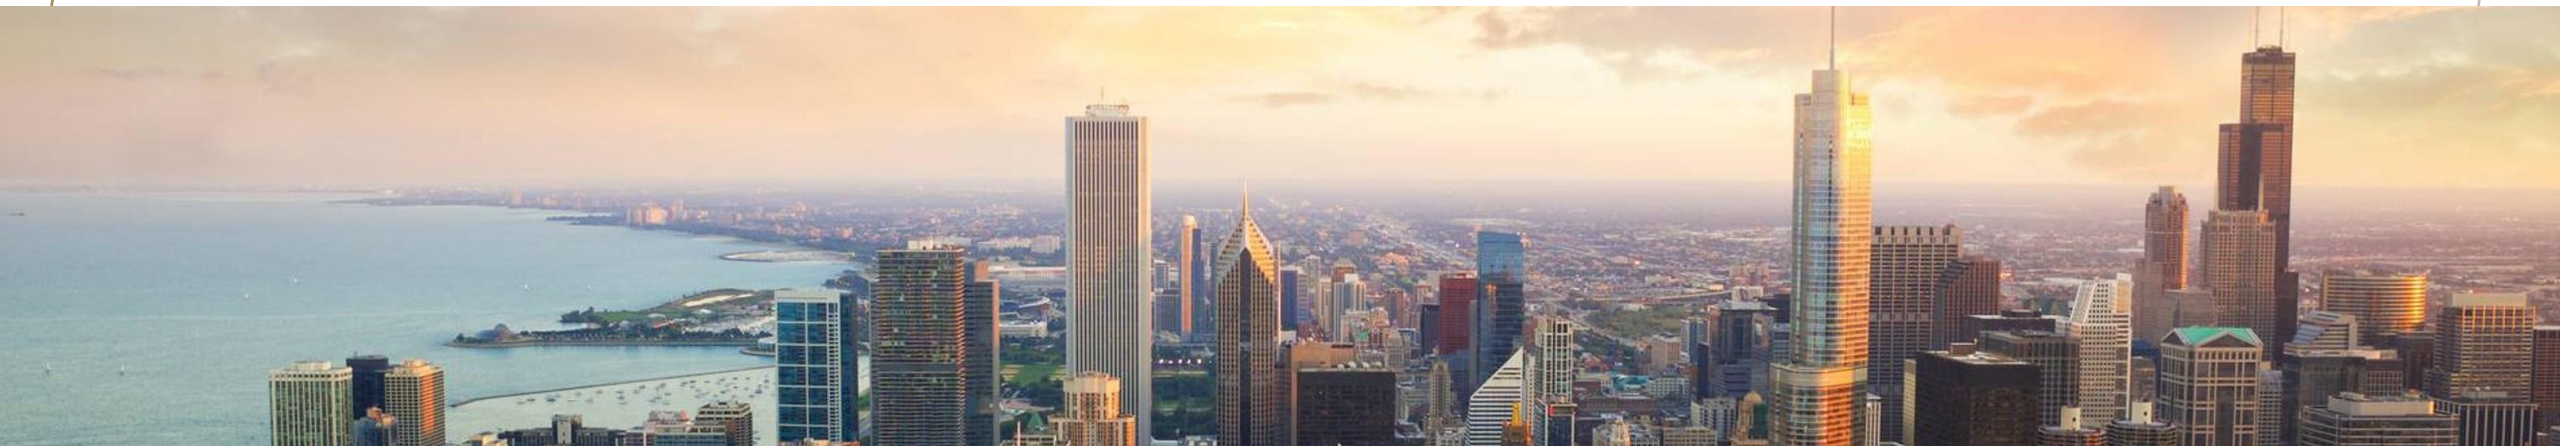

WESTERN DUPAGE CHAMBER OF COMMERCE

SUMMARY

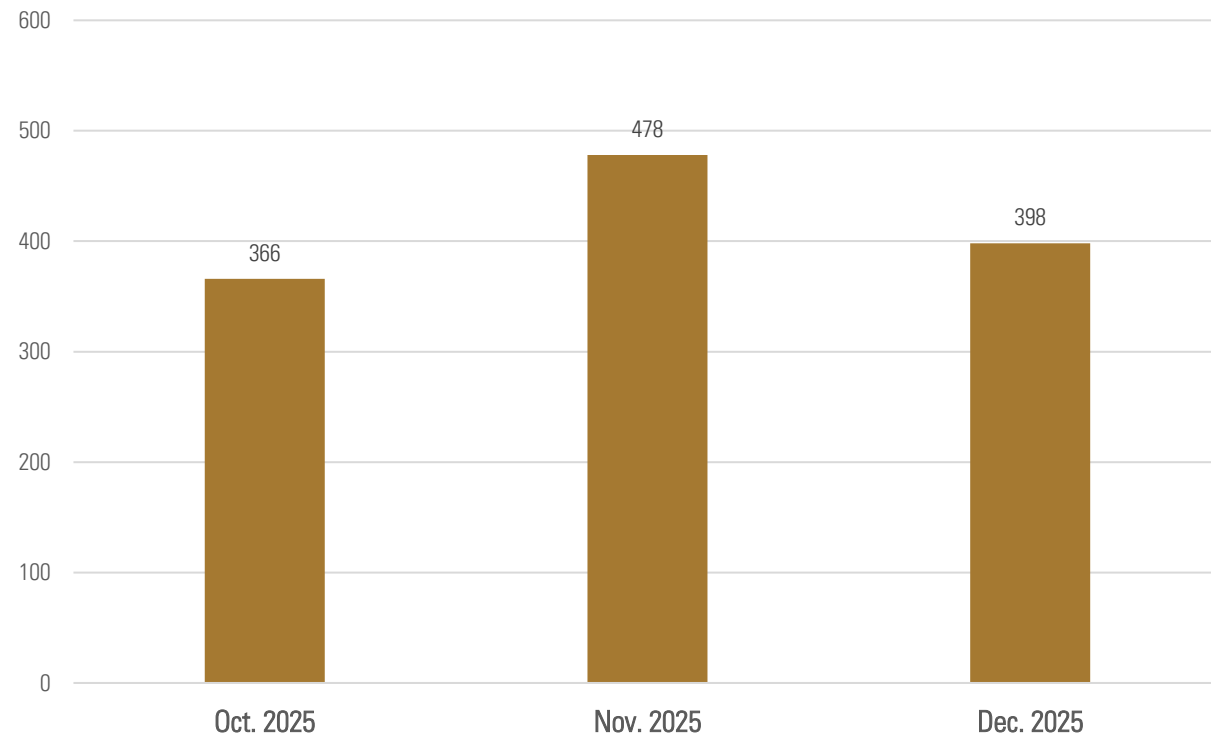

workNet DuPage experienced an 8.9% increase in activity compared to the same quarter in 2024. As was reported previously, there was a downturn of ELA and GED applicants, this trend continues with an overall reduction of around 50% from 2024 to 2025. DRS requests also were down nearly 50%. SNAP was up slightly and TANF saw a small reduction as a percentage of service requests.

Other notable One-Stop-Operator activities include weekly meetings with the User Acceptance Testing (UAT) group developing the state-wide referral tracking system. In addition, the center must complete the MOU process and is reviewing the space needs with all partners. This has potential impacts to the MOU and budget.

Okay, let's get to work!
