

**INTERNSHIP DESCRIPTION—BLENDING AND PRESSING TECHNICIAN – CAROL STREAM**

**\$15.00/HOUR**

**MAXIMUM HOURS/WEEK- 29**

**MAXIMUM LENGTH- 2-3 MONTHS**

workNet DuPage is looking for a WIOA Young Adult program participant for an internship in a Blending and Pressing Technician role for Saint-Gobain Abrasives in Carol Stream. Saint-Gobain Abrasives is one of the world's largest building materials companies and manufacturer of innovative material solutions helping create great living spaces by combining comfort and sustainability. For more than 350 years, Saint-Gobain has been enhancing the wellbeing of people everywhere, whether it's by addressing climate change, delivering true sustainable development, advancing the information revolution, participating in medical breakthroughs, or playing a vital role in space exploration!

This position could be a great fit for you if any of the following are true:

- You're interested in working at a manufacturing company and want to build your skill set for the fastest growing industry in DuPage.
- You don't want to work at a desk and would prefer a job that requires moderate physical activity and an enjoyable work environment.
- You want to work in a clean work space that is climate controlled (air conditioned in summer and heated in winter)
- You are good at paying attention to detail and enjoy seeing immediate results from your work.
- You're interested in gaining exposure to a company culture that fosters the sharing of ideas and engagement in the community.

At completion of this internship, you will be able to add valuable workplace skills to your resume such as Quality Control, Utilization of Mathematical Applications, Operation of Specific Machinery, and more!

As with all internships, the experience, opportunity, and exposure to other professionals you gain in this position could lead your career and future down a variety of different paths, Machine Operation, Assembly Work, Quality Assurance, Operations Management, Material Handler etc.

**Description**

You will report to your supervisor, and will perform the following jobs:

- Utilize a calculator, small scales and measuring instruments.
- Read and interpret work orders, charts, and measuring instruments as pertaining to weighing and blending small amounts of power, epoxy, and bond.

- Apply sound shop math skills such as ratio and percentages, fractions, and decimals.
- Follow written and verbal directions and instructions.
- Practice safe work habits, maintain equipment and work areas in a clean and organized environment.
- Use a variety of common hand tools.

### **What you need to do the job**

- Willing to learn- training will be provided.
- Dependable and knows how to work— good attendance, be on time.
- Must be able to lift to 40 pounds (US) and stand during work time.
- Ability to effectively communicate and follow instructions in oral and written form.
- Attention to detail – careful worker.
- Must be able to pass a drug test and background check.

Saint-Gobain Abrasives  
200 E. Fullerton Ave.
