

Production Graphic Designer

Starting Salary Compensation: **Commiserate Based Off Experience**

Employment type: **Full-Time**

At Premium Custom Products-Colorburst as a production graphic designer, you will get to do more than just execute designs. You will use both your technical and design skills to create impactful products and branding. More specifically, you'll get to:

Position Description:

- Create and manipulate graphics through Adobe Creative Suite apps such as Illustrator, Photoshop, and Dreamweaver.
- Format graphics and proof files, collect for output for print and other processes.
- Assess project specifics and creating a final product that adheres to those requirements.
- Work with customers on concepts and approvals.
- Review and proof graphic materials before the projects are marked as complete.
- Output film and files for production.
- Collaborate with the design team staff to define design goals.
- Follow a product workflow and timeline to ensure projects progress in a timely manner.
- Work in production to confirm art is production ready and working well. Adjust art if needed.
- Create social media content.
- Build and manage e-commerce Stores.
